

Worship young and old
it pleases God we are told.

Some may sit quiet and stern.
Others may need to whisper to
learn

Shoes may be off in a pew,
so, the scuttle won't bother
you.

Bursts of noise will always
be found,
as it shows that worship is
alive and sound.

Long sad cries
may need to step outside
until the pain subsides.

Upon return receive a loving tap of
assurance on the shoulder
to the parent and child from
someone older.

Digital gadgets and gizmos distract.
Worship is for all senses to interact.

Simple movements may be
needed in your seat
but running the aisles is
never a treat.

Hands may doodle, create, be
held or be raised in adoration since
causing no harm is the only recommendation.
